Conveyor Belts Check-In

M.H.S. s.r.l.
Material Handling Systems

The MHS conveyor belt scale
is used at the airport check-in
It weighs baggage and moves
it to the transport line.
It is constructed as conveyor
belt incorporating a weighing system.

Belt Conveyors Check-In	0063-N-000-000
Conveyors Length	According to customer needs
Conveyors width	According to customer needs
Useful width between edges	According to customer needs
Edges height	50±200 mm / According to customer needs
Overall width	According to customer needs
Max Dinamic load	150 kg
Speed	24/36 m/min
Power Motor	0.37 kW
Voltage	380 V
Frequency	50 Hz
Finishing	Inox / Painted / According to customer needs
Temperature range	10 ÷ 50° c
Humidity range	10 ÷ 85%
Belt conveyor number	1-3/According to customer needs
